

## Packing List

**Sealing Plug  
for B-NANO Handle** ..... 10 units

**Manual** ..... 1 unit  
Ref. 0032718

0032718-080424

The use of OB5000 sealing plugs is necessary for the correct operation of B-NANO handles.

They prevent undesirable flux vapors or particles from entering the handle and act as a stop for the cartridges when they are inserted into the tool.

## Replacing the Sealing Plug

OB5000 has a thread for screwing it onto the handle.

To replace it, unscrew the sealing plug, replace it with a new one and screw it in.
